**RESOLUTION
ADOPTING A BUDGET AND AUTHORIZING EXPENDITURES
FOR JANUARY 1 THROUGH DECEMBER 31, 2026**

WHEREAS, the Utility Systems of the City of Robstown was created in 1948 by the City Charter of the City of Robstown; and

WHEREAS, The City Charter of the City of Robstown provides that the management and control of the Utility Systems shall be in the hands of an elected Board of Trustees; and

WHEREAS, the City Charter of the City of Robstown provides that the Utility Board of Trustees shall have the power to prescribe all necessary rules and regulations governing the control, management, and operation of the Utility Systems; and

WHEREAS, a proposed budget for the fiscal year January 1 through December 31, 2026 was prepared and a public hearing held as prescribed by law and the City Charter.

NOW THEREFORE BE IT RESOLVED, by the Utility Board of Trustees of the City of Robstown, Texas:

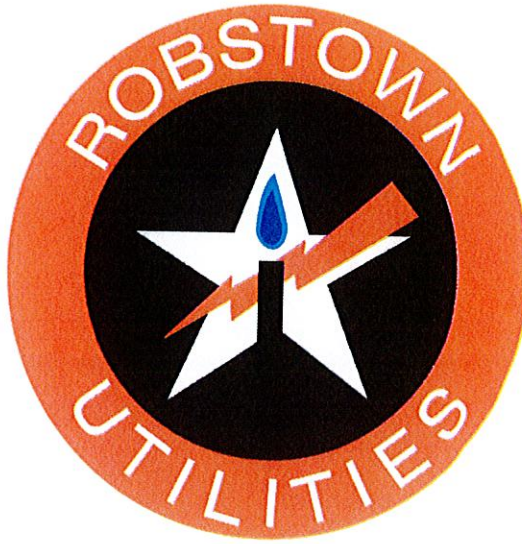

That the aforesaid proposed budget together with all its notes and contents, a copy of which is attached hereto and made a part hereof, is hereby adopted and that authorization is hereby given for the expenditures of the sums under the respective items contained in said budget in accordance with the approved fiscal procedures of the City of Robstown Utility Systems.

PASSED AND APPROVED on this 9th day of December 2025.

Ernest Gallegos, Chairman

Attest:

Grace Martinez, Secretary

PUBLIC HEARING

Notice is hereby given that a public hearing will be held at the Robstown City Hall Chambers, 101 East Main, City of Robstown, Texas at 5:30 p.m. on December 09, 2025 to allow public comment on the 2026 budget. Following the hearing, the City of Robstown Utility Board will consider adoption of the proposed budget for the 2026 calendar year. Dated this 28th day of November, 2025.

Roland Ramos
Superintendent of Utilities

FINANCIAL MANAGEMENT POLICY

In 2005 the Board of Trustees adopted a financial management policy addressing the need to operate each of the Electric Light and Power, Gas, and Sewer Systems in a manner that results in the financial self-sufficiency of each system and the need to establish and maintain a unrestricted cash reserve for the Electric Light and Power, Gas, and Sewer Systems.

The Board resolved and adopted the following goals:

- to operate each of the Systems in a manner that results in the financial self-sufficiency for each System through its rates, fees, and charges without the need for monetary transfers from any other Systems; and
- to maintain a unrestricted cash reserve for each System of at least 20% of the respective System's budgeted operating expenditures for that fiscal year; and
- to retain any and all annual surplus from the respective System's operating budget in a distinct fund for each System until the unrestricted cash reserve for each System has reached at least 20% of the respective Systems operating expenditures for the fiscal year; and
- once the unrestricted cash reserve for each system is fully achieved, the Board will strive to annually maintain the unrestricted cash reserve for each System to reflect no less than 20% of the respective System's budgeted operating expenditures for that fiscal year.

CITY OF ROBSTOWN

Utility Systems

ROBSTOWN, TEXAS
P.O. BOX 71 78380
AC 361 387-3554

Honorable Trustees of the Utility Board:

Provided is the year 2026 City of Robstown Utility Systems operating budget. This budget is intended to serve as a plan by which we have laid out probable expenditures we project will occur over the next twelve months along with the revenues to finance them. Administration is of the opinion that this is a fair and reasonable representation of anticipated revenues and expected costs relating to the City of Robstown Utility Systems.

Administration took a conservative position on projected revenues referring to historical information primarily from past audits. We also relied on historical information for the expenditure side of the financial statements adjusted to provide for inflation, improvements and new purchases. It should be noted that each department should stand alone, e.g. each department should generate enough revenue to pay for all of its expenses.

Total budgeted revenues for the year 2026 are \$18,841,067. Total net revenues for the Utility Systems are projected at \$11,402,567. Monthly cash transfers to the City of Robstown remain at \$147,916.66 for a total yearly transfer of \$1,775,000 and includes an additional \$150,000 for property insurance, and building expenses. In addition to the transfers, free services are estimated at \$207,500 for the year and the USDA note payment of \$140,000. A transfer from the Reserve Fund Account is shown in the Electric department to offset part of the Winter Storm Uri Note payment for 2026 and includes a transfer to the Gas department for said note. Administration is hoping to issue debt to refinance the Uri Note and include new Capital Improvement projects.

This document is a working budget that is subject to change if needed. It is flexible enough to allow for necessary adjustments by the Board and Administration of the City of Robstown Utility Systems as changing circumstances dictate. This is a fair and reasonable document produced according to the best available information at the time of its adoption.

With the Lord's blessings, we hope to have a good year in 2026.

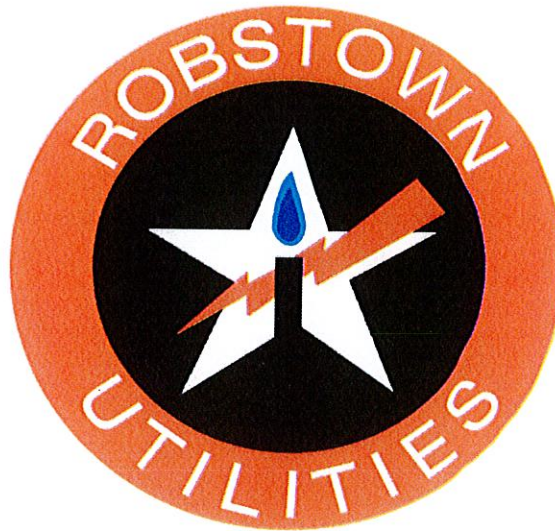

Sincerely,

Roland Ramos, Superintendent of Utilities

Belinda R. Serrata, Director of Finance

GRAPHICAL DEPICTION OF NET REVENUES AND NET EXPENSES

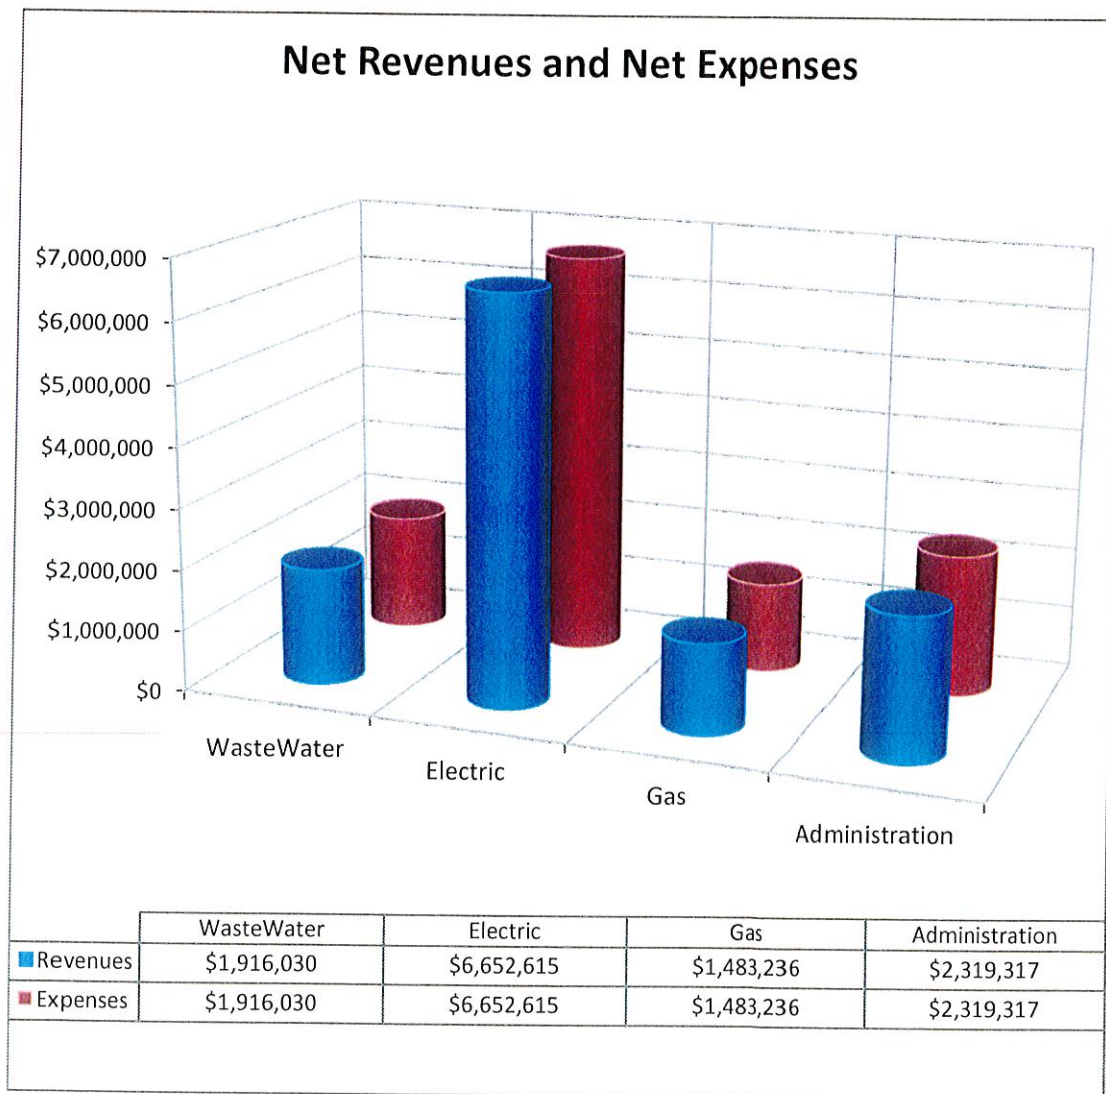

The City of Robstown Utility Systems anticipates the following calculated figures for the fiscal year ending December 31, 2026 on a departmental basis.

	Waste Water		Electric		Gas		* Administration	
Revenues	\$	1,916,030	\$	6,652,615	\$	1,483,236	\$	2,319,317
Expenses	\$	1,916,030	\$	6,652,615	\$	1,483,236	\$	2,319,317
Net Income	\$	0	\$	0	\$	(0)	\$	-

A graphical depiction is shown below, for a more visual representation. The figures in the graph are in relation to the amounts calculated.

* Note: Administration does not generate its own revenue.

Administration will receive revenues from WasteWater (10%), Electric (80%), and Gas (10%) to fund expenses.
